Medi / September

Organic September is upon us and to coincide with the Soil Association's month-long campaign, we have focussed our promotions on the many organic options in our portfolio. The organic market has enjoyed 10 years of consecutive growth, increasing in 2021 by 5.2%. (BWS) Beer, Wines & Spirits continues to be the fastest growing category, up 16.9% last year (Soil Association Organic Market Report 2022). We work with many producers from all over the world - here is a selection we think are worth a taste.
